Starting the money conversation

What to do:
Often people with disabilities, like consumers without disabilities, struggle with money and financial issues. When you feel the time is right, you can simply ask the person to complete the questionnaire in this guide and goal-setting tools in the Your Money, Your Goals toolkit. Explain to them that the questionnaire will help identify financial challenges and will help zero in on the information and tools that will be most useful to them.

Because the questionnaire is simple and only has a few key questions, you may be able to gather the information in conversation. Reading the questionnaire and recording the answers may be especially useful if you are working with a person that has a disability that makes reading or writing difficult. Use the following chart to help you analyze the questionnaire. This analysis will help you determine where to start the financial empowerment discussion.

What to say:
“Answer the following questions based on where you are today. The purpose of this questionnaire is to ensure you get the right financial information and resources.”
